

## The Mindset Behind Success

- Speaker 1: What do you want out of life?
- Speaker 2: I don't know, to be happy.
- Speaker 3: To be happy.
- Speaker 4: I want the American dream, I want to be happy.
- Speaker 1: I am the only problem I will ever have, and I am the only solution. I am the only problem I will ever have, and I am the solution.
- Speaker 5: Well I mean positively or negatively, you attract, not just what you fear, you attract what you feel, what you are, what you attract.
- Speaker 6: What's on your mind.
- Speaker 5: what's on your mind, yes.
- Speaker 7: It's like the law of physics, so I don't know how anybody can disagree with that. Ask any physicist, they'll tell you that it's true.
- Speaker 1: I become what I think about, all day long. Once you know that what you think about is what expands you start getting real careful about what you think about. You don't allow your thoughts to be on anything that you don't want, or that you wouldn't want to have manifest or show up for you in your life.

Speaker 8: You know I believe in the law of attraction, and I believe that you can speak things into existence. I believe that when you know where you're going and you know what you want, the universe has a way stepping aside for you.

Speaker 9: You have to understand, you are a man.

Speaker 10: It's our intention, our intention is everything. Nothing happens on this planet without it, not one single thing has ever been accomplished without intention.

Speaker 11: Einstein's most famous quote was, he said, "Imagination is more important than knowledge. Knowledge is limited, imagination encircles the world." Logic will get you from A to B, but imagination will take you everywhere.

Speaker 12: I think my imagination's always kept me going, you know what I mean? It's like, just imagining myself collecting awards, just imagined myself getting big parts, imagine myself working with the greatest actors. Everybody can imagine themselves, you know what I'm saying?

Yeah, you know what? Actually I can see myself being an influencer in clothes because I can make that happen.

Speaker 1: You've got to understand something about like attracts like, if you see it in your mind you can hold it in your hand.

Speaker 13: If you can see it here and you have the courage enough to speak it will happen.

Speaker 1: You are a magnet, whatever you are that's what you draw to you. If you're negative you're going to draw negativity, your positive, you draw positive. You're a kind person more people are kind to you.

Speaker 14: This is the law of attraction, in the struggle, you know? When things are going good and you visualise these good things happening, you visualise more good things happening, that's easy. What's not easy to do is when things are going bad and you're visualising the good stuff.

Speaker 1: That's what freezes people. When you're trying to figure out your life all the way to the end, when you can't figure it out, it freezes you from trying. Because you go, "I can't figure that out, I can't go over there because I don't know how." You don't have to know how, you have to ask, believe and receive.

Speaker 15: Don't allow anybody else's opinions, don't allow what it says on the internet, don't allow the research, don't allow what anybody out there tells you is possible or not possible for you.

Speaker 1: There are many ways to get the things that we want for ourselves in our lives, but, basically it all begins with how we chose to think.

Speaker 14: I visualised, I'm sitting here over the steering wheel visualising a brand new car, I'm visualising good things in times of struggle. When you can do that I think that really, makes that law of attraction work, I think it really attracts to you more.

Speaker 1: I very often watch a lot of young people meander around without any idea about why they're doing what they're doing. I mean to want, and to be ambitious, and to want to be successful is not enough.
